Sampling intervals: both platforms run at 60 Hz
Android (median 16.7 ms)
iOS (median 17.0 ms)
density (log)
interval between samples (ms; >60 shown at 60)
Gaps: Android 51-152 ms, iOS median 314 ms
Android: before
Android: near movement
Android: after
100 ms: a longer gap near the movement
excludes the trial (rule E4d)
iOS: before
iOS: near movement
iOS: after
gap duration (ms), every interval > 50 ms
