(a) accuracy per grip
1D CNN
1D CNN, all 17 channels
1D CNN, all 17 channels, trained on upright grips only
1D CNN, gravity + body frame (12)
1D CNN, gravity + body frame, trained on upright grips only
upright
top left

1.0
accuracy per instructed grip (95 % CI)
(b) paired differences on rotated / upright grips
device frame (17): upright-only vs all-grip training (rotated grips)
device frame (17): upright-only vs all-grip training (upright grips)
body frame (12): upright-only vs all-grip training (rotated grips)
body frame (12): upright-only vs all-grip training (upright grips)
body (12) vs gravity frame (8), all-grip training (rotated grips)
body (12) vs gravity frame (8), all-grip training (upright grips)
body frame upright-only vs gravity frame all-grip (rotated grips)
Holm p < 0.001
log loss higher, Holm p < 0.001
Holm p = 0.615
Holm p = 0.188
log loss higher, Holm p = 0.023
Holm p = 0.738
Holm p = 1.000
Holm p < 0.001
log loss lower, Holm p = 0.001
Holm p = 1.000
