all primary trials
E4d, all (linear imputation)
E4d, gap only in the margins
E4d, gap inside the approach: linear
E4d, gap inside the approach: cubic
E4d, gap inside the approach: hold
E4d, gap inside: E4d also in training
E4b/E4c trials (current model)
E4b/E4c trials (also in training)
failing thresholds twice as strict
passing thresholds twice as strict
flagged: grip mismatch
flagged: false start
flagged: segmenters disagree > 100 ms
flagged: repeated samples dropped
flagged: possible sensor clipping
swap-signature blocks
